### **Schunk Fuel Cell Stack is “Champion of Interest 2009”**

**The Multi Stack FC-42/HLC of Schunk Bahn- und Industrietechnik, Germany, received “2009 Champion of Interest” certificate from NEI Brazil Magazine and the portal [www.nei.com.br](http://www.nei.com.br). With it the Brazilian industrial magazine awards all those new products published in NEI Portal, which most attracted the attention of Brazilian industrials in the period July 2008 to June 2009.**

The Schunk Fuel Stack was presented in the 2008 August issue of NEI Brazil Magazine, and since then can be found in its internet portal. Due to the great interest the innovative Multi Stack has aroused in the Brazilian industry, the product will be highlighted in the special section “Champions of Interest” both in the 2010 NEI January issue and in NEI portal. Targeting executives that have active participation in the purchasing/specification process, the magazine reaches about 340,000 readers in the most important industries in Brazil.

With the Schunk Multi Stack FC-42/HLC identical single units each in the capacity range of 360 W to 1,4 kW may be connected in parallel. In so doing, the electrical connection can be adapted to the specific requirements of the application. The compact fuel stacks are used in a variety of applications, e.g. uninterruptible power supply in technical safety systems, off-mains power supply or portable generators.

For its innovative manufacturing concept of a fuel stack Schunk was already granted the silver „f-cell-Award“ by the German federal state Baden-Württemberg in 2009.

Schunk Bahn- und Industrietechnik GmbH is part of the Schunk Group, a globally operating technology company representing a broad range of services in the field of materials and systems technology. More than 60 companies with about 7,900 employees in 28 countries belong to the Schunk Group. The annual turnover 2008 amounted to 810 Mio. €.
